\*Requirements for baccalaureate degrees vary widely by major and by institution. To maximize progress toward four-year degree completion, it is essential for students to consult the catalog and transfer policies of their intended transfer institution and to seek additional guidance from that institution's advisors and registrar as needed before selecting liberal studies pathway major courses.

\*\*Acceptance of transfer credit, including the determination of whether and how courses transferred meet graduation requirements at the receiving institution, is at the discretion of the institution to which the student plans to transfer.

^See course descriptions for placement requirements.

^^Science lab courses are taken concurrently with the corresponding lecture courses or subsequently to successful completion of the corresponding lecture courses.

**Minimum cumulative GPA of 2.0 is required for graduation.**
